**Purpose of Contact:** Notification of entry into Chemical Exclusion Area

---

### Discussion

I attempted to contact Cynthia Burbach by phone on this date but was unsuccessful. I left a message and am following up with a Contact Record to document the following notification:

B776/777 personnel's intend to enter a Chemical Exclusion Area [An air lock identified as 146A] subject to the Chemical Consent Order. The purpose of this entry is work on the LSDW system.

In addition, about a month ago, B777/776 personnel entered into a Chemical Exclusion Area for the purposes of sampling chemicals. Chemicals in glovebox 399 were samples. Results are pending.

CDPHE was not notified prior to entering GB399, as personnel believed that an agreement with CDPHE had been reached excluding the facility from this requirement. A subsequent conversation with Cynthia Burbach has clarified that CDPHE would still like to be notified prior to entry into Chemical Exclusion Areas. In the future, CDPHE will be notified prior to entry into Chemical Exclusion Areas.
